

New Jersey Department of Banking and Insurance

OUT-OF-NETWORK CONSUMER PROTECTION, TRANSPARENCY, COST CONTAINMENT AND ACCOUNTABILITY ACT

Report to the Governor and Legislature

December 11, 2019

State of New Jersey
DEPARTMENT OF BANKING AND INSURANCE
OFFICE OF THE COMMISSIONER
PO Box 325
TRENTON, NJ 08625-0325
TEL (609) 633-7667

PHIL MURPHY
Governor

MARLENE CARIDE
Commissioner

SHEILA OLIVER
Lt. Governor

The Honorable Philip D. Murphy
Governor of New Jersey

The Honorable Stephen M. Sweeney
President of the Senate

The Honorable Craig J. Coughlin
Speaker of the General Assembly

Dear Governor Murphy, Senate President Sweeney and Speaker Coughlin:

The Department of Banking and Insurance is pleased to submit the first annual report on the Out-of-network Consumer Protection, Transparency, Cost Containment and Accountability Act, P.L. 2018, c. 32, which was signed on June 1, 2018 and took effect 90 days later on August 30, 2018. While the law has been in effect for just over one year, the Department can report that the law is helping reform New Jersey's health care system in a way that is having a positive impact on our residents.

The Department is pleased to have had the opportunity to provide an update on implementation of the law on April 30, 2019 at the invitation of the Senate Commerce Committee. Implementation of the law is within the purview of the Department of Banking and Insurance, Department of Health, Treasury and the Division of Consumer Affairs. Enclosed in this report is information and data available on the first year of the law's operation. We will continue our work to ensure the law works effectively and look forward to providing additional reports on the impact of this law over time.

Sincerely,

A handwritten signature in blue ink, appearing to read "M. Caride".

Marlene Caride
Commissioner

Introduction

Pursuant to the Out-of-Network Consumer Protection, Transparency, Cost Containment and Accountability Act (“Act”), P.L. 2018, c. 32, the Department of Banking and Insurance (the “Department”) submits the following report to the Governor and the Legislature. The Act enhances consumer protections from surprise bills for out-of-network health care services in addition to making changes to several elements of New Jersey’s health care delivery system. The improvements include increased transparency and various consumer disclosures by carriers and providers, cost-containment for out-of-network services and the creation of an arbitration system.

The Department is pleased to report that the law is removing the patient from surprise billing situations and appears to be contributing to a reduction in out-of-network complaints to the Department. Since the law is still in its infancy it is too early to evaluate the long-term results, nevertheless, the Act is having a positive impact on New Jersey residents. In State-regulated markets and certain self-funded plans that have chosen to participate, the law prohibits balance billing for inadvertent or emergency out-of-network services. The early data suggests that out-of-network health care claims costs appear to be down, out-of-network related complaints to the Department have decreased, and dozens of self-funded plan sponsors have chosen to avail themselves of the Act’s protections for their plan members. Further, despite early challenges, the arbitration system is resolving billing disputes. Given that the law is only a little over one year old, the Department is committed to continuing to gather data to increase the understanding of the law’s impact.

Background

The cost of health care is one of the top concerns of American families. A 2019 Gallup poll found that “fifty-five percent of Americans worry ‘a great deal’ about the availability and affordability of healthcare.”¹ In New Jersey, health care spending rose 18% between 2012 and 2016; New Jersey also had the fifth highest per-person spending nationwide in 2016.²

One critical aspect of health care spending is the cost of providing out-of-network services. According to a 2016 New Jersey Policy Perspective report, approximately 168,000 New Jersey residents receive out-of-network bills each year,³ with an average bill of about \$2,500.⁴ The costs that New Jersey consumers owe because of surprise bills is estimated to be about \$420 million dollars.⁵ Although 1.4 million consumers do not have to pay these bills because they are protected,

⁴ Id.

⁵ Id.

insurers may increase premiums to all policyholders to cover the costs.⁶ As a result, up to 5 million New Jerseyans end up paying about \$956 million more per year for insurance.⁷

The Legislature and Executive branch wrestled with this problem for over a decade, trying to determine the most fair and effective way to protect consumers from surprise bills, control spending on out-of-network services, and not undermine the quality and accessibility of care. A solution was achieved in the Legislature, and on June 1, 2018, Governor Phil Murphy signed the Act into law.

The Act took effect 90 days later on August 30, 2018. Implementation of the law falls within the purview of the Departments of Banking and Insurance (the Department), Health, Treasury and the Division of Consumer Affairs. Under the Act, the Department is charged with, among other things, implementing the arbitration process, overseeing carrier disclosures, providing consumers with information on the Act's protections, and collecting and reporting on certain data. Under a very short timeline, the Department expedited implementation of the law. On August 27, 2018, the Department began the advance notice process for issuance of a Department bulletin to provide guidance to carriers and other interested parties to assist them in meeting their obligations under the law. The Department met with numerous stakeholders, including doctors, specialists and hospital representatives, as well as carriers, to receive feedback that informed the process. After receiving extensive stakeholder input, the Department issued Bulletin 18-14 on November 21, 2018 to provide guidance to stakeholders on implementation of the law. On October 31, 2019, in anticipation of formally proposing regulations to implement the Act, the Department provided advance notice to stakeholders in order to receive feedback concerning the proposed guidance on the Act. The Department requested comments from the public by November 29, 2019 and will formally propose regulations after review of the comments. The Department continues to conduct regular meetings with stakeholders to understand their concerns and refine implementation of the Act to accomplish the intent of the law.

The following report is being provided to the Governor and Legislature as required under the Act. The report is to contain information on the following:

- (1) the arbitrations conducted pursuant to N.J.S.A. 26:2SS-10 and 11;
- (2) the percentage of in-network facilities and hospital-based professionals, by specialty, for each carrier;
- (3) the number of complaints received by the Department relating to out-of-network health care charges;
- (4) the number and description of claims received by the State Health Benefits Plan and the School Employees' Health Benefits Program for in-state emergency out-of-network health care and inadvertent out-of-network health care;

⁶ Id.

⁷ Id.

- (5) annual trends on the health benefits plan premium rates, total annual of spending on inadvertent and emergency out-of-network costs by carriers, and medical loss ratios if available;
- (6) the number of physician specialists practicing in the State in a particular specialty and whether they are in-network or out-of-network with respect to the carriers that administer the State Health Benefits Program, the School Employees' Health Benefits Program, the qualified health plans in the federally run health exchange in the State, and other health benefits plans offered in the State;
- (7) the results of the network audit required by N.J.S.A. 26:2SS-16;
- (8) a summary of the information reported to the Department pursuant to N.J.S.A. 26:2SS-6f concerning the number of claims submitted by health care providers to carriers which are denied or down coded by the carrier and the reasons for the denials of down coding determinations; and
- (9) any other benchmarks or information obtained pursuant to the Act that the Commissioner deems appropriate to make publicly available to further the goals of the Act.

This report is the first annual report on the impact of the Act and will provide information on certain of these components and identify where more time is needed for the Department to establish the processes to gather and analyze information. Going forward, the Department will continue to gather additional data and information to provide a fuller picture for subsequent annual reports.

The Number of Out-of-network Complaints Have Decreased

Since one of the primary goals of the Act is to prevent out-of-network surprise bills, the number of complaints of such activity is a key metric as it relates to implementation. According to a Kaiser Health Tracking Poll, 39% of insured adults ages 18-64 said they received care from a provider that they thought was covered, but their health plan either did not cover the bill at all or covered less than they expected. Surprise bills negatively affect individuals and families, as well as the entire health care delivery system because the costs related to such bills are often spread to all policyholders. While these national statistics are alarming, this Act has gone a long way towards addressing these issues in New Jersey.

In fact, the number of complaints relating to out-of-network charges has gone down since the Act took effect. From August 30, 2018 to August 30, 2019, the first full year that the Act has been in effect, the Department received 32 complaints relating to out-of-network health care charges. This contrasts with the previous 12 months, August 30, 2017 to August 30, 2018, during which the Department received 184 complaints. This reduction in complaints relating to out-of-network health care charges may be an indication that, with respect to removing the health-care consumer from involuntary billing situations, the law is having a positive impact. Additionally, this could be an indication that increased awareness around out-of-network billing and network status, perhaps as the result of the notifications and disclosures required under the Act, may be

reducing consumer confusion and out-of-network surprises. Going forward, the Department will be tracking these complaints closely to provide additional information in subsequent reports.

Arbitration

One of the critical aspects of the Act is the establishment of an out-of-network arbitration process. As background, the Act creates an arbitration process to resolve out-of-network billing disputes for inadvertent and/or involuntary out-of-network services. Where carriers and out-of-network health care providers cannot agree upon reimbursement for such services, an arbitrator will choose between the parties' final offers, provided the amount in dispute exceeds \$1,000. A self-funded plan may opt to be subject to the same arbitration process as carriers in the insured markets. In the case of a self-funded plan which does not elect to be subject to the claims processing and arbitration provisions of the Act, a covered person under that plan or an out-of-network health care provider may initiate arbitration, wherein the arbitrator will choose a final amount that the arbitrator determines is reasonable, which is binding on the covered person and the out-of-network health care provider but not on the self-funded health benefits plan that did not opt-in to arbitration.

The Department has overcome early challenges to keep the arbitration process running smoothly and fairly. Since the Act took effect shortly after enactment, the arbitration process needed to be operational within only a few months. To address that timing challenge, the Act provided for the current entity engaged with the Department under the "Health Claims Authorization, Processing, and Payment Act," to be utilized for arbitration and provided that, after a period of one year from the effective date of the law, the selection of the arbitration entity shall be through the Request for Proposal process. The current company managing the process is Maximus Federal ("MAXIMUS").

MAXIMUS has performed all c.32 arbitrations to date. Under the law, the arbitration determination is to be made based on a review of the parties' final offers, their written submissions, the circumstances presented therein, and the arbitrator's experience in health care pricing arbitration – which may factor in available data. The law does not set a standard benchmark of claims data to be used as the basis for the determination. It is silent in this regard. However, the arbitrator in their expertise and experience is permitted to take data into account when reviewing the file in its entirety and making the determination.

After initial delays prevented arbitrations from being accepted on the Act's effective date, on January 17, 2019 MAXIMUS updated its New Jersey arbitration website to accept c.32 arbitration applications. As of November 19, 2019, MAXIMUS has received 2,922 c.32 arbitration requests. Of the 2,922 cases submitted as of November 19, 2019 2,230 cases have been resolved. The chart following on page 8 describes the number of cases in each phase of the arbitration process as of November 19, 2019.

Initiated	112	Application received; eligibility to be determined
Preliminary Review	219	Awaiting info/documentation from Provider and/or Carrier
Review	339	Complete case files received; case needs to be arbitrated
Decision Pending	12	To be dismissed or withdrawn
Letter Sent	2230	Case closed (decision issued, case withdrawn or dismissed)
Closed	10	Not eligible – upon online application submission
Grand Total	2922	

Of the 2,230 cases that have been resolved, decisions (including default decisions) were issued in 1,755 cases, 250 cases were dismissed as ineligible and 225 cases were withdrawn. With respect to awards issued, carriers prevailed in 780 cases or 44% of the total and providers prevailed in 975 cases or 56% of the total. Awards to carriers totaled \$1,868,690.86 and awards to providers totaled \$11,918,190.91.

Decision	Count of Case Number	Sum of Total Award
Provider Awarded	944	\$11,918,190.91
Carrier Awarded	780	\$1,868,690.86
Provider Award (Default)	31	\$343,654.39
Grand Total	1755	\$14,130,536.16

Of the 250 cases that were dismissed as ineligible, the primary reasons for dismissal are that the health benefits plan was issued in a state other than New Jersey, the health benefits plan is a self-funded plan that did not opt in to c.32 arbitration, and the amount in dispute is under \$1,000.

Dismissal Category	Number
Not issued in NJ	120
Self-funded plan did not opt-in	54
Disputed amount is <\$1k	34
Did not negotiate or negotiation untimely	17
Incomplete application	6
Duplicate case	5
Federal Plan	3
Medical necessity dispute	2
Not emergency or inadvertent	2
Premature Filing	1
DOS before 8/30/18	1
Member not covered during DOS	1
Does not have health benefits coverage in NJ	1
Workers Comp	1
Not payment dispute	1
Medicare	1
Grand Total	250

A log of all arbitration requests showing the prevailing party, the bids offered by the provider and the carrier, the category and practice specialty of the out-of-network provider and the service that was provided and billed is attached as Exhibit A.

Annual Trends on Rates, Total Spending on Inadvertent and Emergency Out-of-network Costs and Medical Loss Ratios

Early indications are that the Act may have contributed to reductions in out-of-network claims costs experienced by carriers. While it would be expected that the reduced claim costs will have a positive impact on rates, it is too early to tell the specific impact on rates and to draw conclusions as to the impact of the Act in this regard.

As part of the Department's rate review process, carriers were asked to provide data on out-of-network claims spending and rates. All carriers from which the Department obtained data have experienced a reduction in involuntary out-of-network claim costs since the Act has taken effect. The change in the law likely contributed to reduced costs associated with claims for involuntary (i.e. emergency and inadvertent) out-of-network services paid by carriers. The extent to which costs were reduced varied by market and carrier. The size of the reduction may also vary. The total carrier spending on involuntary out-of-network services (as defined by each carrier) was reduced by 22% for the individual health coverage ("IHC") market and 56% for the small employer health coverage ("SEH") market. In the IHC market, the reduction in involuntary out-of-network service claim costs for carriers, adjusted for membership changes, ranged from approximately 10% to approximately 70%. Within the SEH market, the reduction on spending on claims for involuntary out-of-network services, adjusted for membership changes, ranged from approximately 25% to approximately 70%. Within the large group market there was much more limited data, but that data showed a reduction of approximately 15% adjusted for membership changes. These reductions in out-of-network claim spending will be included in the carrier experience that is used to set the premium rates. However, it is too early to tell the specific impact on rates.

It is expected that going forward, the Department's ability to assess costs and rate impacts of the law will improve. Currently, the primary challenge in this area is that there is limited claim experience available under the new law, which went into effect August 30, 2018. Medical claims generally take about 3-4 months to be submitted to and paid by the carriers, which means that as of September 1, 2019 only 8-9 months of experience was available for analysis. Submission and payment of medical claims vary by month due to the seasonality of claims (because of types of illnesses, member deductible and out-of-pocket limits) and therefore reviewing less than 12 months of experience limits the usefulness of the data. The Department is also working with carriers to more precisely and uniformly define involuntary out-of-network services as it relates to the data reported. Differences in carrier technology systems and processes will take time to adjust to report more consistent data.

Additionally, with regard to the impact on premium rates, it is important to note that many variables impact aggregate premiums rate changes. Therefore, it is difficult to isolate the specific impacts of a particular variable on the overall rate changes. Below are the aggregate trends in health benefit plan premium rates in the IHC and SEH markets over the last several years.

Year	IHC	SEH
2020	8.7%	1.1%
2019	-9.3%	5.3%
2018	23.3%	8.5%
2017	8.7%	10.8%

With regard to Medical Loss Ratios, New Jersey law requires that carriers have a minimum 80% loss ratio for their standard health benefits plans in the individual and small group markets on an annual basis.⁸ The Affordable Care Act (ACA) also establishes an 80% loss ratio.⁹ Both the ACA and New Jersey require refunds of premium in the event that the minimum loss ratio is not met. If a carrier does not meet the minimum loss ratio requirement, the carrier is required to provide a refund (or credit) to policyholders to achieve the minimum loss ratio for the calendar year.

The most recent MLR filings in the individual and small group markets reflect the 2018 plan year and are currently still under review at the Department. The aggregate loss ratios for the last three available years are as follows:

Year	IHC	SEH
2018*	73.77%	80.52%
2017	89.38%	81.27%
2016	95.29%	83.38%

* 2018 New Jersey Loss Ratios were submitted in August 2019. Each carrier's submission is currently under review.

Going forward, the 2019 MLR reports, which are filed in 2020, will include the MLR after a full year of the Act being in place.

⁸ Recent New Jersey Medical Loss Ratio reports can be found at the following link: https://www.state.nj.us/dobi/division_insurance/ihcseh/ihchistrate.html

⁹ There is a difference in how the loss ratio is calculated under the ACA and how it is calculated under New Jersey law. The IHC Act defines carrier to treat all affiliated carriers as one. There is no similar treatment of affiliated carriers under the Federal law and thus each company is considered separately. Other major MLR differences between the NJ MLR formula and the federal MLR formula include: 1) The NJ IHC MLR formula applies to a single year, whereas, the federal MLR formula applies a three-year average. 2) The NJ IHC MLR formula includes risk adjustment transfers in the denominator (premium) whereas the federal MLR formula includes risk adjustment transfers in the numerator (claims). 3) The federal MLR formula includes quality improvement expenses in the numerator (claims) whereas the IHC NJ MLR formula requires that such expenses be treated as administrative expenses. It should be noted that if NJ MLR and the federal MLR both have a refund due, then NJ will reduce the state refund by the federal refund amount.

Self-funded Plans

The Act included an innovative approach to addressing out-of-network bills for self-funded plan members. Typically, the Department does not regulate self-funded plans, and therefore, would be unable to intervene in balance billing in that context. However, under the Act, a self-funded plan may opt to be subject to the claims processing and arbitration provisions and be subject to the same arbitration process as carriers in the insured markets. Self-funded plans that opt to be subject to the claims processing and arbitration provisions of the Act are not bound to the transparency disclosures and other sections of the Act. In the case of a self-funded plan, which does not elect to be subject to the claims processing and arbitration provisions of the Act, a covered person under that plan or an out-of-network health care provider may initiate arbitration, wherein the arbitrator will choose a final amount that the arbitrator determines is reasonable, which is binding on the covered person and the out-of-network health care provider but not on the self-funded health benefits plan that did not opt-in to arbitration.

As of November 1, 2019, one case has been filed in arbitration involving a self-funded plan that has not opted into the arbitration process and it was filed by the provider. Additionally, approximately 37 self-funded plan sponsors, or their plan administrators, have filed ID cards with the Department indicating they have, or intend to, opt in to the arbitration process. Since a significant number of self-funded plans have opted to take advantage of the Act's consumer protections, it would seem that this approach to protecting members of self-funded plans is working as intended. The Department will continue to work with consumers, providers and carriers to improve the opt-in process and additional guidance and rulemaking will focus on accomplishing that.

Provider Network Status

In order to track trends in network participation the Act calls for this report to include data on network participation of both health care professionals and facilities. While this first annual report provides part of the picture, more time will be needed to determine trends and draw conclusions.

With regard to facilities, the charts following on page 12 show the percentage of hospitals and ambulatory surgical centers that participate in the HMO and PPO networks of the carriers issuing health benefits plans in the commercial market. Hospital participation in HMO and PPO plans ranges from 81% to 98%. Ambulatory surgical center participation in HMO and PPO plans ranges from 51% to 91%.

HMO	Hospitals	Percentage
Aetna	66	94%
AmeriHealth	67	95%
Cigna	61	87%
Horizon	69	98%
Oxford	63	90%

70 total General Hospitals in NJ

HMO	ASCs	Percentage
Aetna	192	64%
AmeriHealth	153	51%
Cigna	253	85%
Horizon	271	91%
Oxford	154	52%

296 total Ambulatory Surgical Centers in NJ

PPO	Hospitals	Percentage
Cigna PPO	60	85%
Horizon PPO	69	95%
Oxford Navigate	57	81%
Oxford Garden State	57	81%
UnitedHealthcare Core Network	57	81%

70 total General Hospitals in NJ

PPO	ASCs	Percentage
Cigna PPO	254	85%
Horizon PPO	257	86%
Oxford Navigate	209	70%
Oxford Garden State	154	52%
UnitedHealthcare Core Network	205	69%

296 total Ambulatory Surgical Centers in NJ

With regard to specialists, the chart below shows the number of specialists in total in New Jersey and in network for each of the carriers issuing health benefit plans in the commercial market in New Jersey. The data on total number of specialists in New Jersey is likely understated as the Board of Medical Examiners did not have data available on licensed physicians by specialty and directed the Department to 2016 data of the American Medical Association.

Specialty	Total # in State*	Aetna Total in-network	AmeriHealth Total in-network	CIGNA Total in-network	Horizon Total in-network	Oxford Total in-network
Cardiologist	934	1247	1042	1194	1116	1204
Dermatologist	351	367	353	420	369	341
Endocrinologist	284	395	157	256	256	255
ENT	267	306	278	312	665	277
General Surgeon	631	802	832	674	551	698
Neurologist	396	709	507	474	459	469
OB/GYN	1350	1271	1216	1322	1182	1285
Oncologist/Hematologist	488	702	128	465	339	511
Ophthalmologist	588	688	662	706	665	645
Orthopedist	584	670	644	665	632	816
Psychiatrist	1128	710	554	572	564	533
Urologist	333	332	306	327	303	309

*Source: AAMC New Jersey Physician Workforce Profile (2017) <https://www.aamc.org/download/484568/data/newjersey.pdf>. The Department cannot verify the accuracy of the data.

Down coded and Denied Claims

For the period of September 1, 2018 through June 30, 2019 the total number of claims received across all health insurance carriers was 36,248,712. The total number of claims includes claims paid timely, claims paid late, and claims denied. The total number of denied claims is 6,544,471 or 18% percent of total claims (see the chart below). However, note that the same claim can be denied more than once if it is not resolved.

Of these denied claims, the reasons provided for the denials include: (1) the claim was for an ineligible service or submitted by an unauthorized provider (69% of the denials); (2) the documentation submitted with the claim did not include all the necessary information (10% of the denials); (3) the code submitted by the provider was incorrect or did not match the service or treatment provided (20% of the denials); (4) the amount charged on the claims did not appear to be in the range of the cost for such services or treatment (1.2% of the denials). This summary does not include claims for dental, vision or Medicare supplement coverage.

Claim Category	Total Claims	Denied Ineligible	Denied Document	Denied Coding	Denied Amount
Physician	15,616,999	1,511,656	311,540	445,904	11,480
Hospital	3,413,531	534,046	99,728	118,669	2,149
Other Health Care Professional	11,687,049	1,792,094	171,007	531,206	64,537
Other Health Care Facility	5,531,133	676,558	94,882	176,283	2,732
Total	36,248,712	4,514,354	677,157	1,272,062	80,898

With regard to down-coded claims, the Department has included a provision in its advance notice for its rule proposal that will require reporting of down-coded claims as part of the prompt-pay reports. As part of that process a new prompt pay report will be provided on the Department's website that will include the collection of detailed information concerning the down-coding of claims.

Network Audit Results, Claims received by SHBP and SEHBP

The SHBP and SEHBP are included in the key consumer protections of the bill. Thus, members of these plans cannot be balance billed for inadvertent and emergency out-of-network services and the plan administrators and relevant providers may participate in arbitration. While it was intended and expected that this would reduce the out-of-network claims costs for the SHBP and SEHBP programs, it is too early to report on this aspect of the law. The Department is working with the Department of the Treasury to obtain data on out-of-network claims as it relates to the Act. Going forward the Department will develop a process for regular reporting of claims data from Treasury to provide information for these annual reports.

With regard to network audit results, the Department has not yet adopted regulations addressing the annual audit of a carrier's provider network as required by N.J.S.A. 26:2SS-16 and no such audits results have been submitted to the Department.

Looking Ahead

As intended, the law is removing the patient from surprise billing situations. Balance billing for inadvertent or emergency out-of-network services is no longer permitted for New Jersey consumers with coverage through fully insured plans, SHBP, SEHBP, MEWAs, and many self-funded plans that have agreed to participate in the arbitration process. While it is too early to evaluate the ultimate long-term impacts of this Act, the arbitration process established under the Act is working and operating consistent with the law, and thousands of decisions have been issued. Remarkably, New Jersey patients now have relief from unexpected medical bills, that were often exorbitant, for out-of-network inadvertent and emergency services. The Act has succeeded in establishing reforms to the health care system to enhance consumer protections, created a system to resolve certain out-of-network billing disputes, and early indications show containment of out-of-network claims costs. Consumers have increased transparency and complaints to the Department are down as compared to before the Act was implemented.

Following the November 2018 bulletin, on October 31, 2019, in anticipation of formally proposing regulations to implement the Act, the Department provided advance notice to stakeholders in order to receive feedback concerning the proposed guidance on the Act. The Department requested comments from the public by November 29, 2019 and will formally propose regulations after review of the comments. The Department is committed to continuing its work to ensure this law works effectively and understands the importance of measuring success with respect to the Act's goals. As with most new policies, the Department recognizes that longer periods of analysis will provide a fuller picture of the impact of the law. As time goes on, and subsequent annual reports are compiled, the Department looks forward to reporting on how the law is working, on its protections for consumers and on the impact on costs over a longer period of time.

Glossary

Carrier is an entity that contracts or offers to contract to provide, deliver, arrange for, pay for, or reimburse any of the costs of health care services under a health benefits plan, including: an insurance company authorized to issue health benefits plans; a health maintenance organization; a health, hospital, or medical service corporation; a multiple employer welfare arrangement (“MEWA”); the State Health Benefits Program, and the School Employees’ Health Benefits Program; or any other entity providing a health benefits plan.

Emergency medical condition is a medical condition manifesting itself by acute symptoms of sufficient severity including, but not limited to, severe pain, psychiatric disturbances and/or symptoms of substance abuse such that a prudent layperson, who possesses an average knowledge of health and medicine, could reasonably expect the absence of immediate attention to result in placing the health of the individual (or, with respect to a pregnant woman, the health of the woman or her unborn child) in serious jeopardy, serious impairment to bodily functions, or serious dysfunction of a bodily organ or part. With respect to a pregnant woman who is having contractions, an emergency exists where there is inadequate time to make a safe transfer to another hospital before delivery or the transfer may pose a threat to the health or safety of the woman or the unborn child.

Emergency or urgent basis means all emergency and urgent care services including, but not limited to, the services required pursuant to N.J.A.C. 11:24-5.3.

Involuntary and/or inadvertent out-of-network services means health care services that are: covered under a managed care health benefits plan that provides a network; and provided by an out-of-network health care provider in the event that a covered person utilizes an in-network health care facility for covered health care services and, for any reason, in-network health care services are unavailable in that facility. Inadvertent out-of-network services shall include laboratory testing ordered by an in-network health care provider and performed by an out-of-network bio-analytical laboratory.

Appendix A

Out-of-network Decisions and Awards through November 19, 2019

Specialty	Service Description - CPT Code 1	Category (Emergency / Inadvertent)	Provider Final Offer	Carrier Final Offer	Decision	Total Award
Plastic surgery	13132, 99283-25-57	Emergency	\$14,500.00	\$1,008.89	Carrier Awarded	\$1,008.89
Urology	52356, 52352-51-59, 52344-51-59, 99285-25, 76000-26-59	Emergency	\$25,681.00	\$2,241.89	Carrier Awarded	\$2,241.89
